1. Reference is made to your memorandum of 12 August 1946 with respect to a blank intelligence dissemination form used by the SSU, War Department.

2. It is recommended that in selecting a form to be used by Special Operations consideration be given to its adaptability to use by all offices of CIG. To this end it is apparent that several of the notations on the SSU form should be changed for final approval by all offices and the Executive Staff.
